Starting with the 2012-2013 school year, the Louisiana Department of Education improved and simplified the way schools are graded by aligning with higher standards, rewarding the gains schools have already made, and focusing on students below grade level through a new bonus system. Schools earn 100 points or an 'A' every time a student achieves a desired outcome like scoring Basic, graduating with a diploma, etc. Though some outcomes generate more points and some less, if every student scored the minimum desired outcome, the school would earn a score of 100, an A grade.
